

Pharmacy Education Unit

The Pharmacy Education Unit of Pacific College of Pharmacy functions as a dedicated academic body committed to enhancing the quality of pharmaceutical education through structured planning and continuous improvement practices.

The core objective of this Unit is to ensure the effective development, delivery, assessment, and continuous enhancement of all courses under the pharmacy program. To further strengthen academic excellence, the Unit regularly organizes faculty development programs, continuous education initiatives, and student centric learning activities, along with leadership and skill development programs aimed at nurturing competent and industry-ready pharmacy professionals.
